CV HIGHLIGHT

I am a mobile-focused Software Engineer with more than 6 years in Flutter development and 1 year in backend work experience. Specialized in Flutter, Laravel, Firebase, REST APIs, and Git CI/CD. I have successfully developed 30+ production-ready Flutter applications and worked with international companies including **Vitec Visual (Germany)**, **SensusSoft (India)**, and **Meta Design (India)**. I excel in both independent and team-based projects, delivering scalable, high-performance apps with clean architecture, strong API integrations, real-time features, and optimized UI/UX. Known for fast delivery, strong problem-solving skills, and a consistent commitment to building stable, high-quality mobile solutions.

TRAININGS

- Learn Flutter mobile programming -UDEMY
- Learn Flutter mobile programming -UDEMY
- Learn how to leverage the power of a Laravel back end API -UDEMY

KEY SKILLS

- FLUTTER
- LARAAVEL
- FIREBASE
- GIT CI/CD
- REST API
- PLAY STORE
- APP STORE
- ATCLASSIA
- ADOBE ILLUSTRATOR
- ADOBE PREMIERE

REMARABLE APP

Bingo- A spanish retailer wholesaler purchase product by the support of financial institute or bank

Uriself- A urintest app based on color match (AWS server)
